

Gaia Green GLACIAL ROCK DUST

100% Canadian Glacial Moraine

22.68kg/50lb.

Gaia Green Glacial Rock Dust is mined from a piedmont glacial moraine in British Columbia, Canada. It is a source of natural minerals and trace elements that plants may need to thrive. This product can be used on farms, home gardens, landscapes and turf, for a full range of plant types.

Directions for Use: In the garden and landscape: Up to 12kg per 100m² (25lbs per 1000ft²). Gently dig into soil surface once a month or as desired. **Transplanting and premixing soil for potted plants and planter boxes:** 15ml per 4L (1tbsp per gallon) of soil or growing medium. Thoroughly mix into soil or growing medium. **Top dressing:** 15ml per 4L (1tbsp per gallon) of soil or growing medium. Gently dig into soil surface once a month or as desired. **Directions for use on pasture land, grain and field crops:** 110kg per hectare (100lbs per acre) annually, higher rates can be applied based on soil condition. **High value commercial crops such as vegetables, fruit & nut crops and vineyards:** 560kg per hectare (500lbs per acre) and up to 1120kg per hectare (1,000lbs per acre) or more per year for crops under severe stress. Lightly work into soil surface where possible. **Apply generously, Glacial Rock Dust will not burn.**

Guaranteed Analysis:

Magnesium (Mg)	0.846%	Iron (Fe)	3.28%
Cobalt (Co)	0.0012%	Manganese (Mn)	0.0536%

Derived from: glacial moraine
