Dolomite Lime

Dolomite Lime sweetens your soil (raises the pH) to improve plant growth and maximize fertilizer performance. Natural limestone is ground into an ultra-fine powder then prilled into uniform granules for easy spreading. This allows for a rapid reaction time once applied to garden soils and lawns. Dolomite lime supplies calcium and magnesium, essential nutrients that are required for proper plant growth and development.

GUARANTEED ANALYSIS

CALCIUM (Ca)	**23.5%**
MAGNESIUM (Mg)	**9.5%**
CALCIUM CARBONATE (CaCO$_3$)	**49.8%**
CALCIUM CARBONATE EQUIVALENT (CCE)	**98.2%**
MAGNESIUM CARBONATE (MgCO$_3$)	**32.9%**

Derived from: Dolomite Limestone
CAS# 16389-88-1

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:
2% Lignosulfonate

Moisture content does not exceed   **1.0%**

Listed by the Organic Materials Review Institute (OMRI) for use in organic production.

SIEVE ANALYSIS (before prilling)	
Passing a 100 Mesh Sieve	**94.8%**
Passing a 40 Mesh Sieve	**98.5%**
Passing a 20 Mesh Sieve	**100.0%**
Passing a 10 Mesh Sieve	**100.0%**
Oregon Lime Score	**95**

APPLICATION RATES

2 cups ≈ 1 lb; approximately 10 cups per 5 lb box

Most garden plants prefer a soil pH between 6.0 and 7.0. Performing a complete soil analysis or using a soil pH home test kit before application is recommended. If you do not know your soil pH, use the recommended application rates below.

Lawns: In spring and fall, apply 2.5-5 lbs per 100 square feet and water in well. Results may be enhanced if applied following aeration.

To Adjust Soil pH	
Current pH	Apply per 100 sq.ft
6.0	3 lbs (6 cups)
5.5	5 lbs (10 cups)
5.0	10 lbs (20 cups)

Vegetable Gardens & Flower Beds: To prepare new gardens, apply 1-1.5 lbs per 100 square feet by evenly distributing over soil surface by hand or spreader. For soil pH maintenance, test and apply seasonally as needed.

Trees & Shrubs: Spread ½-1 lb per 1" of trunk diameter around the base outwards to the drip line and water in well.
