## ROOT BOOSTER Myco Inoculant

Use for Flowers, Vegetables,  
Trees, Vines & Houseplants

Net Wt. 4 oz. (113 g.)

**Directions:**

**Flowers/Vegetables:** one-half tsp. (8 shakes) sprinkled on transplant roots or placed under larger seeds.

For smaller seeds, scatter/rake into soil at a rate of 1 oz. per 100 sq. ft.

**Trees/Vines:** apply 1 tsp. directly to roots or into hole when transplanting.

**Existing Plants:**

Use dowel to probe a hole down to root zone. Pour 1 tsp. into hole, close hole.

Use organic fertilizers for best results.

*Auxiliary biotic soil and plant substance*

NONPLANT FOOD INGREDIENT
