## BENEFITS

- Use for vegetables, fruits, flowers, shrubs, trees, orchards, vineyards, turf, row and field crops.
- Promotes vigorous and beautiful plants, robust fruits and vegetables and lush turf.
- Supports strong root and shoot growth.
- Critical for regulating plant nutrition.
- Fosters root, leaf and plant growth and crop reproduction.
- Reduces blossom end rot risks in tomatoes and peppers, blackheart of celery, and tip burn of cauliflower, cabbage and Brussels sprouts.
- Environmentally responsible. 100% natural. No additives.

## RECOMMENDATIONS FOR USE

**Newly Established Turf and Landscape:** Spread 15 - 30 LBS per 1,000 SQ. FT. of turf.

**Established Turf:** Spread 7 - 15 LBS. per 1,000 SQ. FT., 305 - 650 LBS per acre. Continue to apply every three to six months throughout the growing season or as desired.

**Field Crops:** Till 7 - 14 LBS per 1,000 SQ. FT., 305 - 610 LBS per acre. Continue to reapply to the soil as needed.

**Row Crops (root vegetables, brassicas, lettuce):** Till 10 - 20 LBS. into the soil per 1,000 SQ. FT. Continue reapplying annually to the soil as needed.

**Trees, Shrubs and Flowers:** Till 1 - 2 cups into the soil near the base of the small plants, trees and shrubs. Increase application for larger plants. Use up to 20 LBS per 1,000 SQ. FT. Apply twice yearly in the spring and the fall or as needed.

**Vineyards:** Till 1 - 2 cups to the soil near the vine trunk/root area. Use up to 12 - 18 LBS per 1,000 SQ. FT., 523 - 783 LBS per acre. Apply twice yearly in the spring and the fall, or as needed.
