**Myco Inoculant**

**Use for Flowers, Vegetables, Trees, Vines & Houseplants**

Net Wt. 24 oz. (0.68 kg.)

**Directions:**

Flowers/Vegetables: one-half tsp. sprinkled on transplant roots or placed under larger seeds.

For smaller seeds, scatter/rake into soil at a rate of 1 oz. per 100 sq. ft.

Trees/Vines: apply 1 tsp. directly to roots or into hole when transplanting.

**Existing Plants:**

Use dowel to probe a hole down to root zone. Pour 1 tsp. into hole, close hole.

Use organic fertilizers for best results.

Auxiliary biotic soil and plant substance  
NONPLANT FOOD INGREDIENT
