

# MOSQUITO DUNKS®

## BIOLOGICAL MOSQUITO CONTROL

**EACH DUNK KILLS MOSQUITOES FOR 30 DAYS OR LONGER**

### PRECAUTIONARY STATEMENTS:

**Hazards to Humans:** Avoid breathing dust. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**Environmental Hazards:** Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

### FIRST AID

- If in eyes:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
  - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
  - Call poison control center or doctor for treatment advise.

### HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

### GENERAL INFORMATION:

**MOSQUITO DUNKS®** float on water and will keep on working for 30 days or longer under typical environmental conditions. While floating, they slowly release a long-term, biological mosquito larvicide at the water's surface. This larvicide gradually settles in the water where it is eaten by mosquito larvae growing there. **MOSQUITO DUNKS®** may be used in all types of containerized standing water sites, except finished, treated drinking water, where mosquito larvae grow. Alternate wetting and drying will not reduce their effectiveness.

### DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### OUTDOOR USE AROUND THE HOUSEHOLD:

Use one (1) **MOSQUITO DUNK®** for up to 100 square feet of water surface, regardless of depth. They can be used whole or broken into portions and applied to containerized standing water found near the home such as:

- animal watering troughs
- bird baths
- flower pots
- rain barrels and roof gutters
- unused swimming pools
- old automobile tires
- water gardens
- tree holes

**Mosquito Dunks®** can used in any containerized standing water, except finished, treated drinking water found near the home.

To prevent them from being washed away, the **DUNKS** can be anchored using a string tied through the center hole, or they can be staked in place.

Use the following table to determine the quantity to be used.

Surface Area of Standing Water	Use Quantity
1 to 5 square ft.	1/4 DUNK
5 to 25 square ft.	1/2 DUNK
25 to 100 square ft.	1 DUNK
Above 100 square ft.	1 DUNK/ 100 sq. ft.

**Preflood Treatment Around The Household:** Apply **MOSQUITO DUNKS®** at the rates recommended above to any target site listed above which is known to become flooded after a rain. Use the correct amounts in accordance with the above dosage table.

**INDOOR USE:** For use in areas that collect water from time to time, areas such as elevator shafts, basements that flood, sump pumps and any drainage areas within buildings. Use the correct amount in accordance with the above table.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE** Tightly close containers of unused **DUNKS/BRIQUETS**. Store in cool, dry well-ventilated place.

### PESTICIDE DISPOSAL AND CONTAINER HANDLING

**If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. Batch code or lot number is on back of label near UPC Code.

**If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Net Weight 2.75 oz.
